## COMSC NOTICE 12300

Subj: GOVERNMENT HIRING CONTROLS

Encl: (1) Request for Hiring Approval

1. Purpose. To delineate the procedures for filling ashore positions within Military Sealift Command.
2. Discussion. The President of the United States has stated his desire to flatten the Federal bureaucracy, reduce the number of high-level managerial positions and redistribute resources to front-line service delivery jobs. The Secretary of Defense has delegated authority to the Service Secretaries to appoint, promote or reassign individuals to positions after determining that such fills are consistent with the spirit and intent of the President's initiative. The Secretary of the Navy has redelegated this authority to the Commander, Military Sealift Command, who has determined that the authority will not further redelegated.
3. Exempted Positions. The following positions are exempt from hiring controls: positions filled through the DOD Priority Placement Program, firefighters, police officers and other law enforcement positions, health care professionals and civil service mariners. No other command-wide positions are exempt from these controls.
4. Managerial Positions. These positions are defined as those which direct the work of an organization, are held accountable for the success of specific line and staff functions, monitor and evaluate progress of an organization toward meeting goals, and make adjustments to work plans, objectives, schedules and commitment of resources.
